DIRECTOR JOHNSON'S "TIPS."

Says It's Customary to Pay Policemen for Doing Their Buty at Weddings, Balls, &c.

From the generally seedy and dilapidated appearance of the crowd that occupied the seats reserved for witnesses in Part III. of the Superior Court this morning, it might readily have been inferred that Mr. Goff's subpoena servers had made a descent last night upon the east-side lodging-houses in search of 'floaters" and ante-election "colonists. There was also a liberal sprinkling of swarthy-skinned individuals in this conthat suggested a visit to while the presence of a number of policemen in uniform, to ether with Excise Com-missioner Dalton, who admitted that he had come down with a subpoena in his locket, seemed to indicate that there would be no radical change to-day in general tenor of the investigation Mr. Goff proposed to follow up the fraudulent registration vein which tapped yesterday.

Mr. Moss said that the counsel for the mmittee were anxious to push mat ters to a climax, but that with the mass testimony that had been prepared it was impossible to go ahead more rapidly than at present without jeopar dising the ultimate success of the investigation. As soon as a solid foundation of fact has been laid, he said, the Committee would be in a nosition to follow the evil-doings up through the higher ranks of the police service, but
